WHISTLE-BLOWERS

~ Melonee M.

Amid the horrifying controversies of Trump which have given us quite a shock, ranging from him having a “liking” for his daughter to him possibly being a reptile, a new conspiracy has ignited in the minds of mankind. Allegedly, a complaint was filed against Trump by a whistleblower. The report explained about him placing a deal in the palms of a Ukrainian President, Vladimir Zelensky in July, 2019 stating to investigate Joe Biden,

Trump’s potential opponent in the 2020 elections along with his Hunter Biden and his company GroundStrike. It might seem like mindless talk in the town but the major reason, is skyrocketing, for the depth of the evidence. The allegation was confirmed by the non-verbatim summary of the conversation released by the White House which had raised a question over Trump. The report filed also included that the records of Trump-Zelensky calls were moved to a higher and more regulated system reserved for the government’s most sensitive secrets, which, was confirmed later. Conspiracy theorists beliefs became even stronger when Trump restrained the aid to Ukraine as he reckoned at first, because of corruption in Ukraine but subsequently transmitted his own words by

saying, as other nations, especially those in Europe, not pitching in financial assistance. After all the manifesto that happened this week, it surely comes to my mind that whether the world actually does not comprise of gluttony or are we just living in a virtual world assuming it’s made for the evolution of mankind? Is everything dependent on you ruling alongside the world? Human greed has its way of the making the universe resolve around it. In recent times of modern generation: likes, comments, money or luxury may titillate you but the true plethora is the cleansing of our minds which have gradually become weak because of our recalcitrant thought process. Without this cornucopia of positive sanity, the world will remain a disappointment from the incapacities of reasoning.

A LOOK BACK

~ Ms. Priya Nanda

SPS: How was your journey at Mussoorie International School?

MPN: Journey at MIS, BEAUTIFUL. I’ve experienced both joy and sorrow. Joy, because I saw my students grow from strength to strength, I saw my girls turning into women and this led to sorrow. Sorrow, because waving these girls goodbye was a difficult task, brings in the nostalgia of happiness and goodbyes. Always have welcomed my upcoming batch and would always remember if one door closes it opens another.

SPS: How did you feel after finally making up your mind that you are leaving MIS?

MPN: Not an easy question to answer. It is not easy because I have spent 7 years of my life here, and MIS has stood by me through my typical period. It is not easy to leave the known for the unknown. It is a very long journey and as Robert Frost says “Two roads diverged in a wood, and I—I took the one less travelled by, and that has made all the difference.”

SHANE DAWSON

~ Viva Davariya

Conspiracy theory; usually defined as a theory that explains an event or set of circumstances as the result of a secret plot by powerful conspirators. I stumbled upon these amazing and dark theories through one of the most relatable people I have ever seen, who not only made me question my existence but also make me interested in a vast range of concepts. With over 22 million subscribers Shane Dawson officially released his conspiracy theory series which reached great heights in the blink of an eye. This series has already received over 60 million views and I'm not surprised. He is one of the most dedicated vloggers I have ever seen on YouTube. What makes him stand out from the rest of the conspirators are his theories which are not entirely true but might not be false either, and

these are supported by video recordings, pictures, voice recordings, text evidence and a lot more. His background sound, the depth of his tone and the determination seen might just make you believe in these theories that he digs out; it gives me shivers just thinking about the way he talks about his theories. Theories that might just question your existence or might be so dark and unbelievable. One more quality of this inquisitive mind is if he is not satisfied by his theory or his research, then he goes the extra mile and interviews the person he suspects. He has also said that once he doesn't have a satisfactory answer he can go up to any extent to research. The theories which really blew my mind are that the Earth is flat which is supported by picture evidence, the 9/11 attack was

conducted by the US government itself and that the plane never crashed the business trade centre, the California wildfire was intentional as it burnt down everything even the trees around the house except for the house itself which literary proves it was intentional. Apple slowing down its previous iPhone model when a new one was released. This put a big question mark on the company's face. NASA never landed on the moon and all of it was an illusion was again support with all kinds of evidence available which made me look into my history books again. There are several disturbing theories related to the beauty world and pop culture especially K-pop bands which are yet under the rock. In short Illuminati, interesting right? INTRIGUED? Go check him out on YouTube.

IN CONVERSATION WITH DR. PONNY CHACKO

SPS: Would you like to speak something about the teachers and students?

DPC: Teachers are just facilitators and are always learning from you. Students are bound to think with a wider perspective, inculcate the knowledge from everyone around and be compassionate inquirers. I really appreciate the students here as they carry a positive attitude and are very hardworking.

SPS: What do you expect from IB?

DPC: I look forward to see IB toppers from MIS in further years. As years go by, you become better at things you practice. Similarly, as IB improves results will touch heights.

SPS: What is your experience as an IB teacher/coordinator?

DPC: I have been a part of the IB curriculum for 13 years. Before receiving the designation of the IB coordinator in MIS, I was in Dhaka holding the same position as I do here.

SPS: What do you intend to do for IB?

DPC: I am hoping to make the IB program in MIS reach world and as students you are inquirers working with innovation. I am therefore looking forward to introduce a flip teaching system and move away from from the chalk and talk system .

CAUTION: HOUSES ON FIRE

~ *Silent Eyes*

Who won the Talent?!

Who stands out amongst the crowd?

Who are Sweet but Psycho and are apparently winning the Oscars? But to be mentioned: NOT ANYMORE

Rise in the heat between the houses due to heats has recently been causing GLOBAL WARMING.

After last years defeat, the wounded lion seem to be putting extra effort to get laurels to the house. “ S for Sports-Day hamari trophy vapis de”is definitely the spirit in terms of action as well.

Will the trophy remain Gayatri’s this year?

Or has the lion flipped from head to tail?

But seeing the overall determination and the over excited cheerleading squad seems to give birth to ignite hope and competition.

Best of luck for the most awaited last ‘Major House Event’ for the year 2019. “So don't loose it, just LAKSHMI IT!”

THE POTATO VERDICT

~ *Potato Queen*

Here is this week’s spice for my dear she-panthers, ma-panthers and pa-panthers. Let’s begin with a question, what does sportsman spirit comprise of? Blaming your fellow competitors for pushing and hitting, in order to make your mistake invisible? Convenient much? Oh, I’m sure it is! A true sportsman would know that ‘unconsent’ hitting and pushing is to be ignored. For instance, the fans of Cristiano Ronaldo and Lionel Messi have a never-ending enmity, but they do end up being the best of buddies. I strongly believe, such little common things, shall NOT be expected by this aspect of the youth - “MISTARS.”

JOURNEY THROUGH THE MYSTERIOUS GLOBE

- Japan sends in troops after deadly typhoon floods towns threaten more damage.
- World Bank slashes India’s growth forecast to 6% for this fiscal year.
- Trumps takes on Beyonce, Bruce and Prince, While Hong Kong gets its song.
- Cranberries to become the first Irish band to reach a billion views on YouTube.
- Three militants killed in a gunfight with Indian troops in Kashmir.
- Popular K-pop artist Sulli, 25, was found dead at her home.

KARMA, YOU THERE?

~ *Maleficent*

Someone must have told you that there’s something accounting for all your mistakes, tallying your profits (deeds) and losses (misdeeds).

What do you take karma to be, a fact or a myth? I mean if karma is so righteous, then shouldn’t you be worshipping a sort of idol of it? Do you know in order to be on the safer side? If it’s the *universal truth*, why hasn’t it been mentioned in any epic or holy literature? How easy is it to leave it all up to Karma even if its revenge *you’re* striving for? Or are we just using it to join the popular league (you know, follow the leader)

Shouldn’t we put our beliefs in our *Karam* (deed) and not karma (an illogical personification of the tally chart)? In the 21st century, where the world runs on logic and reason, sorry but the theory of ‘going with the flow’ is null and void.

To summarise all the questions above, we present to all beloved myth believers; the last time you said ‘*karma hits hard*’ was it actually karma or just a coincidence?

FEEDBACK ON ‘THE ORIGINALS’

~ *Anonymous*

Having a weekly newsletter for MIS has always been a dream. I guess I am one of the few people who were genuinely happy on hearing about this. ‘The Originals’ has given me, as an individual, a great platform to explore myself. Never expected this weekly to be such a blockbuster. However, I would like to request all the readers of this newsletter to actively participate in contributing to the same and emerge as budding artists . Everyone requires some sort of humour in life, give it, you’ll definitely enjoy the flavour.

An Adventurous day with the ITBP Officers

~Avani & Nanda

We are going to share our experience with Indo Tibetan Border police Academy. Our journey started with fifteen students in grades 7 and 8. And a teacher from MIS at 9 am to ITBP. We were welcomed by the warm smiles of the officers. Then we were taken to the hall. There we got a brilliant opportunity to take a look at different defense equipment. As club members gave a speech about the foundation of the club. Then the speech was concluded by telling us about how to take admission in ITBP, Airforces, etc. It was founded on the 24th of October 1962, there was a secret force named “ Guerrilla cum fighting”. They were introduced in India when they fought the Indo Pakistan in 1976 and 1971. In 1976 its original role changed to a conventional one. When the speech ended we were provided with some refreshments. The commando further divided us into 5 groups, with all the schools mixed up. Every group was sent to different actives so that we get to know more about the obstacles, they face during their journey and the clothes they wear in will condition and many more, we saw IED bombs and other bombs. We had sixteen obstacles like two tunnels, spider web, rope climbing, bridge, etc. They showed us a demonstration and asked us to try. The initiatives were taken by Pari in the spider web, Nanda and Aarohi in Tarzan hand-walk, Nanda and Pari in rock climbing, Ma’am Roy, Pari, Mahima, Avani, Nanda, Aarohi, Chhavi, Yukti and Ayantrika in the bridge. We got together at a short firing range. They were ammom and pistol. Their people from various countries came to learn how to shoot. Then we went to Karate. After that, we had a tug of war. And the program was concluded with a tasty lunch. We would like to express a special to our principle ma’am Roy who gave us such a good opportunity to go there and educate ourselves on different defense techniques.

SIMON SAYS

Terrace is open?
(kahuu baby)

I feel pathetically
(N....i Aashna is calling you)

I attended the kesh (cash) question
(the constant for Simon says “the Drum Majorette”)

There is the monkey
(the correspondent “Suchi”)

I am cheesing
(the techie of Gr. 11)
